

# SAFETY DATA SHEET

Australian statement of hazardous nature : Classified as hazardous according to criteria of Safe Work Australia

# Section 1 - Identification

Product Name	2,4-Hexadienoic acid
CAS No	110-44-1
Synonyms	Sorbic acid
Product Code	120530000; 120530010; 120531000; 120532500; 120535000
Address	ThermoFisher Scientific Australia Pty Ltd 5 Caribbean Drive, Scoresby VICTORIA 3179, Australia
Emergency Tel.	CHEMTREC® 03 9757 4559 or +613 9757 4559
Telephone / Fax Numbers	Tel: 1300 735 292 Fax: 1800 067 639
E-mail address	ANZinfo@thermofisher.com
Recommended Use	Laboratory chemicals.
Uses advised against	This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list. This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction. This product does not contain any substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern.

# Section 2 - Hazard(s) Identification

### **Classification under Safe Work Australia**

Classified as hazardous according to criteria of Safe Work Australia

### Physical hazards No hazards identified

Health hazards

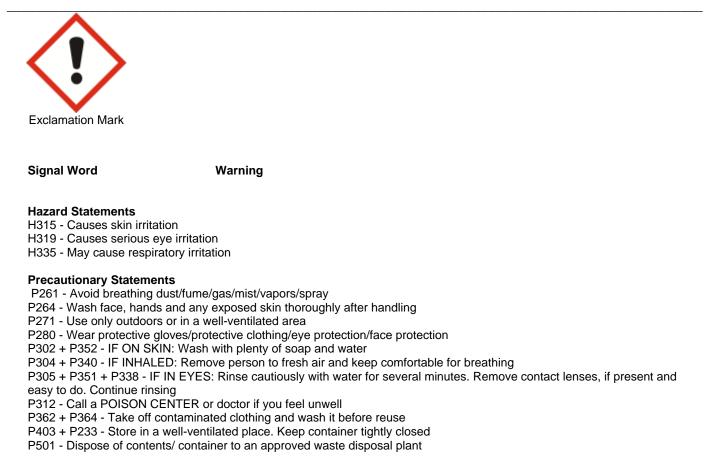

Skin Corrosion/Irritation Serious Eye Damage/Eye Irritation Specific target organ toxicity - (single exposure)

Environmental hazards No hazards identified

### Label Elements

ACR12053

Category 2 Category 2 Category 3

### Other information

# Section 3 - Composition and Information on Ingredients

Component	CAS No	Weight %
Sorbic acid	110-44-1	>95

# Section 4 - First Aid Measures

Inhalation	Remove to fresh air. If breathing is difficult, give oxygen. Get medical attention.
Ingestion	Do NOT induce vomiting. Get medical attention.
Skin Contact	Wash off immediately with plenty of water for at least 15 minutes. Get medical attention.
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.
General Advice	Immediate medical attention is not required. Show this safety data sheet to the doctor in attendance.
Self-Protection of the First Aider	Use personal protective equipment as required.
First Aid Facilities	Eyewash, safety shower and washroom.

Most important symptoms and No information available. effects

Notes to Physician

Treat symptomatically.

### Section 5 - Fire Fighting Measures

### Suitable Extinguishing Media

Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam.

#### Extinguishing media which must not be used for safety reasons No information available.

**Hazardous Decomposition Products** 

Carbon monoxide ( $\dot{CO}$ ), Carbon dioxide ( $CO_2$ ).

### Decomposition Temperature

>170 °C

### **Specific Hazards Arising from the Chemical**

Thermal decomposition can lead to release of irritating gases and vapors.

### Special protective equipment and precautions for fire fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

### Section 6 - Accidental Release Measures

### Emergency procedures

Ensure adequate ventilation. Use personal protective equipment as required. Avoid dust formation.

### **Environmental Precautions**

Should not be released into the environment. See Section 12 for additional Ecological Information.

### Methods for Containment and Clean Up

### Clean-up methods - small spillage

Sweep up and shovel into suitable containers for disposal. Avoid dust formation.

### Clean-up methods - large spillage

Typically only supplied is small quantiites as packaged goods.

If extremely toxic or used in larger quantities ensure a spillage action plan is in place. Evacuate area. Control the source and/or contain the spill if safe and able to do so. Use temporary diking, sand bags, dry sand, earth or proprietary booms/absorbent pads if available. Obtain advice on containment, neutralisation and clean-up from local emergency responders.

### **Reference to Other Sections**

Refer to protective measures listed in Sections 8 and 13.

# Section 7 - Handling and Storage

### Precautions for Safe Handling

Wear personal protective equipment/face protection. Ensure adequate ventilation. Do not get in eyes, on skin, or on clothing. Avoid ingestion and inhalation. Avoid dust formation.

### Conditions for Safe Storage, Including any Incompatibilities

Keep at temperatures below 38°C. Keep container tightly closed in a dry and well-ventilated place.

AS/NZS 2243.10:2004, Safety in laboratories - Storage of chemicals

### Section 8 - Exposure Controls and Personal Protection

### Exposure limits

The product does not contain any hazardous materials with occupational exposure limits established.

### **Biological limit values**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

### Exposure Controls

### **Engineering Measures**

**Eye Protection** 

Ensure that eyewash stations and safety showers are close to the workstation location. Ensure adequate ventilation, especially in confined areas.

Wherever possible, engineering control measures such as the isolation or enclosure of the process, the introduction of process or equipment changes to minimise release or contact, and the use of properly designed ventilation systems, should be adopted to control hazardous materials at source

### Personal protective equipment

Wear safety glasses with side shields (or goggles) Goggles (Australian/New Zealand Standard AS/NZS 1337 - Eye protectors for Industrial applications)

### Hand Protection Protective gloves

Glove material Natural rubber Butyl rubber Nitrile rubber Neoprene PVC	Breakthrough time See manufacturers recommendations	Glove thickness -	AUS/NZ Standard AS/NZS 2161	Glove comments (minimum requirement)
---	---	----------------------	--------------------------------	---

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

Skin and body protection	Wear appropriate protective gloves and clothing to prevent skin exposure
Repiratory Protection	Use an AS/NZS 1716 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. To protect the wearer, respiratory protective equipment must be the correct fit and be used and maintained in line with AS/NZS 1715 on the use and maintenance of repiratory protective devices (or AUS/NZ equivalent)
Hygiene Measures	When using do not eat, drink or smoke. Remove and wash contaminated clothing and gloves, including the inside, before re-use.
Environmental exposure controls	Do not allow material to contaminate ground water system.

### Section 9 - Physical and Chemical Properties

#### Information on basic physical and chemical properties

Appearance	Off-white
Physical State	Solid

Odor Odor Threshold pH Melting Point/Range Softening Point Boiling Point/Range	Slight No data available 3.3 132 - 135 °C / 269.6 - 275 °F No data available No information available	(0.16 %)
Flash Point Evaporation Rate Flammability (solid,gas) Explosion Limits	127 °C / 260.6 °F Not applicable No information available No data available	<b>Method -</b> No information available Solid
Vapor Pressure Vapor Density Specific Gravity / Density Bulk Density Water Solubility Solubility in other solvents Partition Coefficient (n-octanol/wa	<0.01 mmHg @ 20 °C Not applicable 1.2 No data available 1.6 g/L (20°C) No information available ter)	Solid
Component Sorbic acid Autoignition Temperature Decomposition Temperature Viscosity Explosive Properties Oxidizing Properties	<b>log Pow</b> 1.32 415 °C / 779 °F >170 °C Not applicable No information available No information available	Solid
<u>Other information</u> Molecular Formula Molecular Weight	C6 H8 O2 112.13	

# Section 10 - Stability and Reactivity

Reactivity	None known, based on information available
Stability	Light sensitive. Air sensitive.
Conditions to Avoid	Incompatible products, Excess heat, Avoid dust formation, Exposure to air, Exposure to light.
Incompatible Materials	Strong oxidizing agents, Strong bases, Reducing Agent.
Hazardous Decomposition Products Carbon monoxide (CO). Carbon dioxide (CO2).	
Hazardous Polymerization	Hazardous polymerization does not occur.

# **Section 11 - Toxicological Information**

### Information on Toxicological Effects

Product Information			
(a) acute toxicity; Oral Dermal Inhalation	Based on available data, the No data available No data available	classification criteria are not me	t
Component	LD50 Oral	LD50 Dermal	LC50 Inhalation

Sorbic acid	LD50 = 3200 mg/kg (Rat)	LD50 > 2000 mg/kg (Rat)	
(b) skin corrosion/irritation;	Category 2		
(c) serious eye damage/irritation;	Category 2		
(d) respiratory or skin sensitization Respiratory Skin	; No data available No data available		
(e) germ cell mutagenicity;	No data available		
(f) carcinogenicity;	No data available There are no known carcinoge	enic chemicals in this product	
(g) reproductive toxicity;	No data available		
(h) STOT-single exposure;	Category 3		
Results / Target organs	Respiratory system		
(i) STOT-repeated exposure;	No data available		
Target Organs	No information available.		
(j) aspiration hazard;	Not applicable Solid		
Other Adverse Effects	The toxicological properties had complete information	ave not been fully investigated.	See actual entry in RTECS for

Symptoms / effects, both acute and No information available delayed

# Section 12 - Ecological Information

Ecotoxicity effects	Do not empty into drai	ns.		
Component	Freshwater Fish	Water Flea	Freshwater Algae	Microtox
Sorbic acid	LC50 96h 1250 mg/L (Zebrafish)	EC50: = 353.54 mg/L, 48h (Daphnia magna)		EC50 = 1121 mg/L 1 h EC50 = 2803 mg/L 1 h
Persistence and Degradability Persistence Bioaccumulative Potential	Readily biodegradable Soluble in water, Persistence is unlikely, based on information available. Bioaccumulation is unlikely			
Component	log	Pow	Bioconcentra	ation factor (BCF)
Sorbic acid	1	.32	No da	ta available
Mobility	The product is water s	oluble, and may sprea	d in water systems. W	Vill likely be mobile in the

The product is water soluble, and may spread in water systems. Will likely be mobile in the environment due to its water solubility Highly mobile in soils This product does not contain any known or suspected endocrine disruptors **Endocrine Disruptor Information** 

Persistent Organic Pollutant **Ozone Depletion Potential** 

This product does not contain any known or suspected substance This product does not contain any known or suspected substance

### Section 13 - Disposal Considerations

Waste from Residues/Unused

Do not allow into drains or watercourses or dispose of where ground or surface waters may

### SAFETY DATA SHEET

Products	be affected. Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with all federal, E.P.A., state and local regulations. Assure conformity with all applicable regulations.
Contaminated Packaging	Dispose of this container to hazardous or special waste collection point.
Other Information	Chemical wastes should be disposed through a licensed commercial waste collection service. Waste codes should be assigned by the user based on the application for which the product was used. Do not empty into drains.

# Section 14 - Transport Information

IMDG/IMO	Not regulated
ADG	Not regulated
IATA_	Not regulated
Environmental hazards	No hazards identified
Special Precautions	No special precautions required
Additional information	None known

## Section 15 - Regulatory Information

### Safety, health and environmental regulations/legislation specific for the substance or mixture

### National Regulations Australia

See section 8 for national exposure control parameters.

### Standard for the Uniform Scheduling of Medicines and Poisons

No poison schedule number allocated.

### Australian Industrial Chemicals Introduction Scheme (AICIS)

Component	Australian Industrial Chemicals Introduction Scheme (AICIS)	Additional information			
Sorbic acid - 110-44-1	Present	-			

### Australian - Illicit Drug Precursors/Reagents Substance List

This product does not contain any substance(s) on the Illicit Drug Precursors/Reagents list.

### **Chemicals of Security Concern**

This product does not contain any substance(s) listed on the voluntary National Code of Practice for Chemicals of Security Concern

National pollutant inventory Not applicable

### Prohibition or notification/licensing requirements

Shown below are details of specific prohibition/notifications or licencing requirements when they apply.

This product does not contain any substance(s) subject to Prohibition, Authorization or Restriction.

### International Inventories
